EXPERIENCE

Freelance Developer

Groshev & Partners

📅 02/2023 - 06/2023   📍 Sofia, Bulgaria
🔗 https://www.legalbg.net/

Took part in leading the communication with the client, planned the technologies that best met the client's requirements, and determined the necessary steps to meet the client's criteria.

- Next.js, React.js, Type Script, JSON
- Additional Libraries: TailwindCSS, Daisy UI, Google Blogger API

Front End Developer

TECHSTORM LTD

📅 06/2022 - 12/2022   📍 Sofia, Bulgaria

Participating in the creation of an MVP for a website as a front-end developer and a mobile application, extended existing functionality and implemented new features by completing assigned tasks.

- Tech stack: Next.js, React.js, React Native, Type Script, MongoDB, JSON.
- Additional Libraries: Auth0, Ant Design, Axios, Moment JS, TailwindCSS, React Router.

PROJECTS

Fitness Tracking Application: Motion Mate

🔗 https://a58-agents-team1.github.io/Motion.Mate/

Fitness tracking application, where users can track their daily exercises, such as calories burned, exercises done, or other activities. Users can set their goals and track their progress. They can also add their friends and see their progress as well.

- React.js, JavaScript, Firebase, Tailwind CSS
- daisy UI, Git

Forum: Tasty Recipe Talk

As part of a team, I was involved in creating the food recipe forum, creating the database connection, the GitHub repository. Building functionality and style of the project.

- React.js, JavaScript, Firebase
- Chakra UI, Git

Portfolio: Portfolio Hosted on Vercel

🔗 https://portfolio-psi-one-10.vercel.app/

The portfolio is created with Next.js and a library called Nextra(opens in a new tab) that gives flexible generation of content based on MDX files.

- Next.js, Type Script
- Nextra, MDX, Git
